LENOVO® THINKSERVER TD100

Intel, the Intel logo, Xeon, and Xeon Inside are trademarks or registered trademarks of Intel Corporation in the U.S. and other countries.

Med Lenovos ThinkServer TD100 får du en solid gennemprøvet hardware platform, som vil servicere dig problemfrit i mange år fremover.

De medfølgende, "Think" værktøjer (se bagsiden) gør det nemt at installere, drive og administrere din nye ThinkServer TD100. TD100 er "Workhorse" modellen i Lenovos serverprogram. Den leveres med 1 eller 2 processorer,

som senere kan opgraderes til højere hastighed, hvis der skulle blive behov for dette. Du kan vælge mellem modeller med Hot-Swap SAS harddiske eller Simple-Swap SATA harddiske. Har du behov for mere redundans, er der også modeller med Hot Swap redundante strømforsyninger. Til forskel fra TS100 får du udover 1 processor mere også mere plads til Memory.
